

TRANS TRITIA

Improving coordination and planning of freight transport on Trans Tritia project territory

INVITATION TO FINAL CONFERENCE

After 3 years of successful implementation, the project *Trans Tritia - Improving coordination and planning of freight transport on Trans Tritia project territory* is reaching to the end of its duration.

The key concept of the project is to improve strategic planning and accelerate development of freight transport in Polish/ Czech/ Slovak border territory, as well as to strengthen the cooperation and flow of information among regional stakeholders and authorities. The project is focused on optimization of economic efficiency and increase of use of eco-friendly means of transport, which will lead to shift of freight transport from roads to railways and inland waterways. The final project orientation is to find solutions to meet goals of The White Paper on Transport. To do so we identified obstacles of freight transport in the project area and on that basis we elaborated a set of strategic documents with recommended solutions.

Being content and proud of all the project achievements, we would like to share with you project results, good practices and how we all can benefit from cross-border cooperation in the field of freight transport. At the same time, except for the project perspective, the broader outline of development of multimodal freight transport will be presented.

We are pleased to invite you to join us during the project final conference, which will be organized on 19.11.2020 and will take place fully online.

To register to the conference, please, use the following link with a registration form:

We are looking forward to seeing you at the conference!

Sylwia Rudek - Matuszczak
GAPR Director/ Steering Committee Coordinator

with Project Partners

The conference is organized within a project Trans Tritia - Improving coordination and planning of freight transport on Trans Tritia project territory (CE960), which is co-financed by European Regional Development Fund within Interreg Central Europe Programme

TRANS TRITIA

Improving coordination and planning of freight transport on Trans Tritia project territory

Final conference agenda

Date: 19.11.2020

Venue: online

09:00 - 09:30 media conference

10:00 - 10:15 Introduction - Sylwia Rudek-Matuszczak, GAPR Director/Steering Committee Coordinator

10:15 - 10:30 Trans Tritia project - main assumptions and objectives - Aleksandra Krawucka, Project Manager

10:30 - 10:45 Development through connectivity of EGTC Tritia - Marta Slavikova, EGTC TRITIA Director

10:45 - 11:00 Better connecting peripheral and border regions in central Europe - Winfried Ritt, Joint Secretariat, Interreg CE

11:00 - 11:15 TRITIA Regional Multimodal Freight Transport Strategy - K. Dohn, M. Kramarz, Z. Žebrucki

11:15 - 11:30 Cross-border Multimodal Action Plans for PL/CZ, PL/SK, CZ/SK - L. Knop, E. Przybylska, A. Szymborski

11:30 - 11:50 Action Plans for inland waterways, railways and intermodal logistic centres/terminals - P.Santarius

11:50 - 12:05 Tritia Transport Model - M.Trnka

12:05 - 12:20 Coffee break

12:20 - 12:35 Inland waterways in multimodal transport system- Gabriela Tomik, Plenipotentiary of the Ministry of Infrastructure

12:35 - 12:50 Railways and waterways - equal importance in multimodal transport system - Radosław Pacewicz, ARP SA

12:50 - 13:05 Mutual development of railways and terminals - Monika Konsor - Fařerek, PCC Intermodal SA

13:05 - 13:20 Directions of intermodal transport development in Poland until 2030 with perspective until 2040 - Krzysztof Rodziewicz, Centre for EU Transport Projects

13:20 - 13:30 Summary - Aleksandra Krawucka, Project Manager
